Cyclic numbers list very large

This is a list of all the cyclic numbers under 50,000,000. The numbers 7 through 49,999,903 of for which there are 1,122,560 cyclic numbers of the 3,001,133 are prime numbers. This collection of cyclic numbers spaced by a comma which could be used to reduced to one line for running through your program for further procuring. Most lists of cyclic numbers only included up to 100 or 1000 max. I know that a larger list has been created but I do not know if they have been saved. On the last seven pages I have added my collection of cyclic numbers from 200,000,000 through 200,200,000 which is a nice collection of larger numbers.
